

Annexe 346 – English

Since you have the file containing all the payments from the last 10 years, could you add up all the payments I've made and all the money Dad has given me? According to my accounts, Mom owes me 30,598 Swiss francs today. Can you verify that this amount is correct? If it is, could you ask our sister, who has power of attorney over Mom's accounts, to make the transfer to my UBS account (IBAN: [IBAN number missing])? If we don't arrive at the same amount, we can meet and look at it together.
