Dear Mr. [REDACTED]

I am very much sorry to inform you that the Federal Office of Police is not competent to assist you in your search for your mother and sister. Please turn to the police station nearest to you and file a missing person report. The police will then take the necessary steps.

I wish you all the best in your search.

Sincerely

Info-Webmaster fedpol

Text :

I live in Geneva, Switzerland. I saw my mother and sister in Alicante on the 15th of April. After that date my mother who is 88 disappeared from her house with my sister. My mother has the habit of never leaving the house even to go shopping. I contacted the British consulate in Alicante who tried to phone but with no success. I sent them an email with all the details I could give them. The British consulate in Alicante suggested that I contact the British consulate in Geneva for assistance. They in turn told me to get hold of the British embassy in Bern. The British embassy told me that my best option was to contact Interpol for missing persons. I also tried my local police station but they are not interested that my mother and sister have disappeared. I tried to email my brother [REDACTED] 95) in Geneva but since the last 8 years he does not speak to me and will not answer my emails. I tried to email my ex-brother in law [REDACTED] who is a lawyer and who lives in Geneva. My ex-brother in law is still an excellent friend of my sister [REDACTED] and they are always in close contact. Unfortunately my ex-brother in law does not speak to me and will not answer my emails. I guess I am not very popular with these 2 persons. I do love my mother and I know my mother loves me dearly. I am worried sick and cannot sleep for the last 9 days. Please tell me what I can do?

Thank you for your help,

[REDACTED]
